

I'm P.Vijayalakshmi mother of A.V.K.Shaileshwaran. I wish to share my experience of my son's school life. I joined my son in Shree Gugans School CBSE in the year 2007 in Pre-kg. As a mom with lot of excitement and expectations I entered into the school. At that time it was a budding school. Two main things I expected was that the atmosphere and cleanliness of the school. As soon as I entered the school campus I was so happy to see the atmosphere as well as the cleanliness which impressed me lot. The same was maintained by the school administration till today which is not a easy task.

Each and every year as my son moving to higher class my expectation also increased regarding his discipline and his education and same was assured by the school. Not only my son but all the other students of Shree Gugans School ,I can boldly say all of them were well disciplined which is more important for every child throughout their life.

Moving onto education right from Pre-Kg to X standard the teachers in the Shree Gugans School are well trained and equipped. I believe in the words that "Teachers are the Second Mother of the Child", this is because the child spends 8 hours in the school. Initially the school was following Xseed curriculum which was also a best system of education. Later on the school adopted the NCERT curriculum and the teachers were also trained by the management for the same. In regular intervals teachers were attending the training programmes and seminars to upgrade themselves. This reflected in the studies of the students which leads to the big transformation of each and every student. Handling the students on their own way is the big responsibility of teachers. I wish to convey my gratitude to all the teachers of Shree Gugans school for their massive hardwork which really impressed me in a great manner. This is evidently proved by the teachers by giving 100% result for 2<sup>nd</sup> consecutive year with 94% scores in X board exams which is a great achievement. One thing I realised from this, it is not about big school or small school it is about how the student were educated and trained to be the best. In that way I'm a proud mother to say that I have chosen the best school.

The other activities like yoga, art and craft ,music and karate were taught by the school in a very effective manner by well trained teachers. These activities made my son as well as other students to exhibit their inborn talent. Each and every year the school conducted many number of competitions such as science exhibition , art and craft, food ,fancy dress,essay,oratorical competitions etc., School also arranged for inter school competitions and district level competition also. In turn most of the students won innumerable prizes.

The school gave equal importance to the sports. Physical fitness plays a vital role in the growth of every student. Football ,kho kho,throwball, basketball,handball were trained to the student by well trained Master. I always raise my hands for sports, this is because the child's discipline, concentration and unity will definitely improve which is very important.

Coming onto the colorful moments of school is that, the celebrations. In Shree Gugans School all kind of festivals like Pongal , Deepavali,Christmas, Independence day ,Republic

day, Teachers day and Children's day were celebrated. I was so excited to see not only my son but other students also. I never miss to see the joyfulness and enjoyment in their faces. The school is very particular in conducting these celebrations which is also important to know about our culture and heritage.

Last but not least Correspondent madam. I am so glad to thank her for what my son is today. She is Optimist. She who deserves the success right from day 1 of school. She was so keen and cautious in the development and growth of each and every student. She took care of every student's academic as well as other activities. She made all students to participate in each and every activities. It is not a possible thing to accomplish. But she always say "Nothing is Impossible". This optimistic view made my son to overcome from stage fear. Women empowerment is once again proved. I adore my Mother, Mother Theresa Madam, Indra Gandhi Madam and Jayalalitha Madam in this line I wish to add yet another name Madam Jayavanthini Sriram.

Here I wish to thank all the teachers of Shree Gugins. My special mention to Alamelu madam (Principal), Varalakshmi madam and Selvi madam. The conversation and interaction which I had with them is unforgettable. Sometimes I argued with them but at the end of argument I was convinced with their reply. Suggestions of parents are always welcomed by the school and some of them were also implemented by the school according to their norms. This made me to continue my son in the school for about 13 years.

My humble suggestion to all the parents if you have any problem either in school or in your child kindly discuss with the concern teacher or the management. Your intention must be in solving the problem not to propoganda the problem which is of no use. In such a way I overcomed many things. Being a responsible parent it is very much important to realise that the overall growth of a child is important.

To conclude I had never made any mistake in choosing Shree Gugins School and continued for 13 years. My son this year appeared in the X board exam and scored a very good marks in his board exam. The fundamental education like DISCIPLINE, NEATNESS, PUNCTUALITY, OBEDIENCE, HUMBLINESS, CLEANLINESS, SHARING, FRIENDLINESS, PHYSICAL FITNESS AND THE KNOWLEDGE which was laid by the school to my son, undoubtedly made my son to move on to next level of education, which assures me that one day my son will excel and reach his heights.

I'm writing this article to share my journey with the SGS, CBSE from its budding stage to this level achieved by the management with lot of struggles and with the CO OPERATION OF PARENTS, TEACHERS/STAFFS AND MAINLY THE STUDENTS. I WISH THE SCHOOL TO BECOME ONE OF THE BEST SCHOOL IN TAMILNADU.

We proudly say we are from SGS2020 BATCH.
